1. Budget estimates for the year 1928-29.

Resolutions of the Standing Committee on the draft budget estimates prepared in the office.

- (1) That as the Kerlapur bridge is practically completed and will be available for traffic from the middle of July 1928, toll may be levied thereon at the maximum rates with effect from 1st August 1928.
- (2) That the provision for Iswarahallihalla should be for a girder bridge and not for a causeway.
- (3) That the provision of Rs. 2,270 for fixing guard stones and widening embankment on Rachenahalli tank bund may be omitted for the present.
- (4) It is ascertained that as regards 17 miles of Bage-Belur Road, 7 miles have a mileage allotment of Rs. 200 a mile and that portion is worked by D. P. W. As regards the other 10 miles, it is learnt that only 9 miles are in charge of Capt. Young. Information may be obtained about the agency that is executing the repairs for the length of one mile. It is noted that no money appears to have been spent over this length of one mile at all at any rate from the 9th mile up to the Arehalli sign post.
- (5) That Rs. 2,000 may be provided on the expenditure side under D. P. W. for restoring the Arkalgud-Maroor Gubbi-Hallimysore road.
- (6) That as regards provision for toll houses, on the expenditure side, the cost of Rs. 1,000 seems to be somewhat high, but the estimates and plans may be obtained and scrutinised taking into consideration the accommodation required to be provided for in each case.
- (7) That the cost for additions and alterations to Rangacharlu chattram at Arsikere may be increased to Rs. 4,000.
- (8) That the provision for Native Kitchen and Motor Garage for Hirisave Travellers' Bungalow may be raised to Rs. 1,500.
- (9) That the provision for Siddapur-Banawar road, on the expenditure side be increased by Rs. 740 as the same is required for the road, in addition to Rs. 3,850 required for the bridge work provided for.
- (10) That the grant of Rs. 10 to the Vydyan at Kerlapur may be stopped.
- (11) That competent Vydyans may also be trained in Vaccination work, with a view to make vaccination work more widespread in the interior and provision made for meeting their expenses.
- (12) That a lamp be kept burning throughout the night, in all important Musafir-khanas and Travellers' Bungalows which are under the management of the District Board.
- (13) That Budget as drafted is approved with the observations noted above.

The draft budget estimate prepared in the office and the resolutions of the standing committee were considered in detail at the meeting of the Board, and the following resolutions were passed:—

Resolution.—That a sum of Rs. 3,000 be provided on the expenditure side for the improvement and formation of Hirisave-Nonavinkere road.

- (b) That it is not necessary to have a well at Karehalli toll-gate, but the allotment of Rs. 915 therefor may be utilised if necessary, for improving the well near Karehalli Police Station opposite the Shandy grounds.
- (c) That Rs. 2,000 may be provided on the expenditure side for the Sravana-belgola-Nagamangala road and Rs. 2,000 for Channarayapatna-Bagur road.
- (d) Capt. Young draws attention to the fact that the grant of Rs. 10 per mile for the Gadmane road, which is 8 miles in length is too small that hundreds of rupees are spent annually for repairs, and that the grant may be increased to at least Rs. 50 a mile. It is understood that the said road serves not only the estate but also a number of other villages, such as (i) Kadmane, (ii) Gudanakere, (iii) Gandimane, (iv) Kattadi, (v) Vajagere, (vi) Kallarmane, (vii) Nattally, (viii) Goadmane and (ix) Komaramane.

Mr. S. Venkatesaiaya proposes that a lumpsum grant of Rs. 250 may be given for the year 1928-29, and that Mr. Beadnell may be informed that the question of increasing the grant to Rs. 50 per mile will be considered sympathetically when framing the budget for 1929-30. The proposition of Mr. S. Venkatesaiaya is accepted unanimously bearing in mind the fact that not less than two to three hundred rupees are being spent every year for the up-keep of this road by the Proprietor of the Gadamane Estate.

(e) That the provision for contributions for the construction of Hospital and Dispensary buildings, etc., may be raised to Rs. 5,000 as contribution will have to be paid for the construction of Hospitals at Belgode, and other places, wherever private subscriptions have already been received.

(f) That as regards resolution No. 6 of the Standing Committee, about the construction of toll houses, zinc sheet sheds may be provided instead of pukka buildings at a cost of Rs. 1,000 and odd, except at Kyathehole.

NOTE:—*Re*: item No. 4 of the resolution of the Standing Committee, it is stated by the Executive Engineer, that the one mile question is being attended to by the D. P. W. the work being got executed on petty contract.

The draft Budget Estimates are passed subject to the resolutions of the Standing Committee and the abovenoted resolutions of the Board.

32. Proposition of Mr. D. Basavegowda, District Board Member, Donegal.

This Board in re-affirming its resolution No. 35 passed in its sessions held on January 21st and 22nd, 1928, urges on the attention of Government that if the bus traffic should be suspended for three monsoon months (1) not merely the bus Proprietors will be ruined now but also the planters who will have to import large number of coolies to work in the Coffee and Cardamom gardens as the work of picking, etc., will have to be done during the said months, (2) that such periodical stoppages are likely to attend in the total stoppage of bus service as no business man can keep his Buses idle for 3 months and maintain an establishment, a contingency which would certainly lead to the rapid further deterioration of the malnad areas and (3) that the roads being properties of the Board an order the adverse effects of which are so patent should have been passed without its consent and that the order should have been given effect to despite its emphatic protest are matters which are worthy of consideration by Government.

Moved by Mr. Basavegowda and seconded by Mr. S. Venkatesaiya.

Capt. Young observes that the motor vehicles rules are not properly observed in the matter of the protection to the Driver from the pressure of passengers.

Having regard to the important and urgent nature of the question and the desire of the bulk of the members that the said subject be taken up for discussion, permission is accorded for moving the same under section 29 (i) of the District Board Regulation of 1926.

Resolution.—The proposition is passed unanimously and the Board would particularly draw attention to the fact that skidding is not peculiar to the buses, and that this seems to be an innovation after the experience of years of bus traffic during the monsoons in the Malnad. The Board would however not be opposed to necessary action being taken to ensure public safety by restrictions and taking other precautions according to rules in force. Copies of this may be sent to Government and the District Magistrates and the Executive Engineer.

33. The following proposition was also moved with permission by Mr. C. K. D. Vajrababbiah, District Board Member, Sravanabelgola :—

Resolution of the Economic Committee.—

“This may be considered at the next meeting after obtaining the opinion of the Director of Industries and Commerce, as to the sufficiency of the value of the security offered by the applicant.”

The question was discussed at considerable length. The matter was put to vote and the granting of the loan was carried by the majority, subject to the following conditions :—

Resolution.—(1) Security to consist of his father's house with his consent the factory, machinery and stock in trade and applicant's personal responsibility.

(2) Free of interest for five years, and 6 per cent interest thereafter for the remaining 3 years for the 3 outstanding instalments.

- (3) The amount to be repaid in 8 equal instalments of Rs. 250 each.
 (4) In case of default in the payment of an instalment, the Board to be at liberty to recall the entire loan remaining unpaid with interest at 6 per cent from date of default.
